

Talk with Gen Heath 5 Oct 45 - Berlin

Heath was St Dep contact with H. He arrived in Berlin 15 Jan 38 + began to see S mostly thereafter. S's attitude was anti-Nazi + he spoke against the regime. When he was in France he warned in a guarded way about the situation.

France but it was not clear. He warned of something in Belgium to H. but in such a way that H did not understand. B. said he did not want to go in Berlin, but he was sure something was going to happen. He called Heath to head west Belgium. He clearly warned of the invasion in Russia 2 weeks before it happened, was 3 days off on his prediction. H. cabled St. Dept ~~with~~ the info + was transferred before the attack to some.

In his talk in 1940-41 S gave full info. He said he was going to see Hitler but did not say about what. He saw Mrs. Heffer (S) was at his home working for him after he left R.B. H. did not discuss S's activities. H. "Gunn" ~~to~~ ^S info on Hitler's plans came from Gen Blee + Harter. S. never indicated he knew B. planned war. He later said to Hafal (Dustin) he just had his eyes opened to H's aggressive intent at time of Munich.

H. did not know where Pleising was but referred me to Keesel (who does not recall). Keesel is trying to find Saccubus, who does. He is in Hamburg.
