Subject: Action against Jews holding Reich Citizenship, 9-10 November 1938

1. The State Police Hq in Würzburg will be reliably informed by telephone in the course of this day regarding the number of Jews over 18 years of age arrested in the course of the action and still detained, and their places of confinement.
2. The numerically reported Jews will be given an official medical examination during the forenoon of 12 November 38 in order to determine their physical capacity for concentration camp conditions.
3. The planned arrests have not yet been completed. Further arrests, in accordance with the order of 10 Nov 38 (specifying that only so many Jews holding Reich citizenship be rounded up as could be lodged in the maximum available jail space), will therefore be made by the police, insofar
