MEMO

TO Col. Black

RODE ←

1. General Donovan telephoned yesterday to say that there is a General-Major Ernst A. ROAD, SS leader, now at the USFET MIS, in Oberursel. This man was personal liaison officer for Himmler, and the General believes he may have some valuable information about the involvement of the German High Command with War Crimes.

2. The General would like you to have somebody contact this man, and then inform General D. what information can be obtained. If preliminary interrogation seems important General D. requests he be phoned the dope immediately.
