Memorandum for Col. Storey, Chairman Bd of Review  
from Donovan

In addition to requesting each deft. to state whether he was willing to continue under interrogation--I think we should give consideration to the necessity of warning each of such defendants as do so (indecipherable word) that anything they say may be used against them.

There **is** still open the question as to the position we should take in the matter of interrogations already (indecipherable).

We should be certain that the rule we lay down should be fair and sensible.
